

## ***Teen Outreach Program visits Atlanta***

From October 13th to 15th, supporters from the community engaged in the excitement as the Teen Outreach Program (T.O.P.) Children and its facilitators departed on a Great American travel bus for an educational trip to Atlanta, Ga., to visit such historical landmarks as The Martin Luther King, Jr. Museum, Stone Mountain and the Underground Mall. The trip was arranged by Dr. Betty Fomby, director, and Clement LaFleur, program coordinator. Supporters in the community included District Attorney Brent Coreil, John Larry Vidrine, employees from Citizens Bank, employees from Savoy Medical Hospital, employees from Ville Platte Medical Center, owners of Williams Funeral Home, Lemoine & Associates, along with other supporters. Parents and relatives embraced their children before the bus departed from Antioch Baptist Church, with a representative from Congressman Chris John's office present.

The trip was made possible by The Rapides Foundation, St. Landry-Evangeline United Way, Cabot Corporation, CenturyTel, and Williams Funeral Home.
